

TPMS

Gussin TPMS Relearn Procedure A0020

Sensor Relearn Procedure with a scan tool

OB2 II dongle is not required

Confirm TPMS sensors are properly installed

Adjust tire pressures to placard value

Apply parking brake

Turn ignition to ON

Turn headlight switch from OFF to parking lamp 4X within 4 seconds

Double horn chirp

Use tool to activate LF sensor

Single horn sounds

Repeat for RF/RR/LR

Turn ignition OFF

Drive vehicle for 2 minutes above 25Mph to get correct DIC display

If learn mode can't be enabled, see service manual

Release parking brake before driving vehicle

Tip: Lowering driver's side window may help to complete this process on larger vehicles
